Dear Chairman Powell:

I, as a person who lives in a very rural section of Oklahoma, would greatly appreciate your support of this merger. I am in a small western Oklahoma town where cable is available, but for twice the price and half the channels. Without cable (or hopefully, satellite) it takes a very expensive antenna just to see a fuzzy picture of the Oklahoma City television stations. This is a community where I would estimate that 70% of the citizens are satellite subscribers and I haven't heard of one saying they wouldn't appreciate this service. Also being a farm community, we rely heavily on local weather. There is only so much a national weather channel can do for any specific area. So, with all possible gratefulness, please help this merger to go through. Thank you so much in advance for your assistance.

Sincerely,
